

CFM Services are now supplying Eflare LED Safety Beacons to the **Emergency Services**.

Eflare HZ510 - for the Emergency Services

Highly Visible

The Eflare Safety Beacon is a portable, highly visible warning LED light. Used by Emergency Services and industries around the world. The Eflare uses an urgent flash rate, high luminosity LEDs and a patented fresnel lens to provide maximum visibility which is effective for more than 1 kilometre.

Simple to use

Simply twist the lens to turn on and place one or more units around the area. The Eflare is compact and lightweight making it easy to carry and store anywhere. It requires just 2 alkaline D cell batteries for up to 40 hours operation.

Eflare provides for a quick and easy method to enhance safety by creating a highly visible warning or safety zone.

Versatile

With a variety of accessories, it easily attaches to clothing, vehicles, cones and bollards. Be seen and safe in almost any situation.

Durable

All Eflare models are impact resistant, waterproof and dustproof. It has an ABS body and cap as well as a shatterproof polycarbonate lens.

Safety Approved

It is HAZMAT accredited for use in Class 1, Division 2 / ATEX Zone 2 hazardous areas. Unlike pyrotechnic flares there is no risk of fire or explosion and there are no toxic fumes or residue.

HZ510 Specifications

Body Color:	Yellow
Number of LEDs:	8
Color Options:	Red / Amber / Green / Blue / White
Candela:	up to 30
Flash Rate:	165 - 185 flashes/minute
Battery Type:	D Cell x 2 (Not included)
Battery Life:	40 hours
Weight:	450g inc Batteries
Height:	20 cm

Which Eflare is best for me?

We have a wide range of Eflare Safety Beacons available. They are categorised in the following way.

One Flashing Colour

- EF350** – Available in Amber or Red
- HZ510** – Available in Blue, Green, Red, Amber and White
