

## BRIGHT STAR - WORKSAFE RAZOR LED

ZONE 0 INTRINSICALLY SAFE LED HAND-HELD TORCH.

The Razor LED is an intrinsically safe, ATEX Zone 0 accredited hand-held torch.

As with all Bright Star Lights, It has a deep-dish reflector, which focuses the light from the high output LED. Due to its ATEX accreditation this torch is safe to use in potentially explosive environments.

An ergonomic design features an easily accessible switch and a knurled handle for a maximum grip. The water and dust proof enclosure is constructed from super tough nylon, which makes it non-conductive and highly durable.
